Digital Careers Upskill Programme

Serco

The Digital Careers Upskill Programme helps to support businesses and employed people across Greater Manchester with digital training courses in key digital disciplines. The programme is split into two offers: Digital Reskill – for retraining individuals into digital roles; and Digital Upskill – upskilling individuals already in digital roles.

Serco and their supply chain partners deliver a wide range of courses under the two strands of the programme, suitable for people currently working in digital roles and those who want to reskill/retrain to join the sector.

Accelerating Net-Zero Opportunities

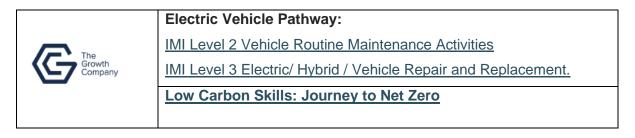

The Growth Company

Accelerating Net-Zero Opportunities (ANZO) from Growth Company and the Business Growth Hub delivers two tailored courses, one for SMEs and one for GM residents focussed on green skills.

Course 1 – Electric Vehicle Pathway is a level 2/3 course for vehicle technicians to gain knowledge and skills to work safely when carrying out maintenance and repair activities on electric and hybrid vehicles and offers two qualifications.

Course 2 – Low Carbon Skills: Journey to Net Zero is a fully funded programme for businesses of any size in the early stages of the pathway to net-zero emissions.

Through workshops, study material, one-to-one advice and peer support shared learning, delegates will be equipped with the knowledge to understand their net zero priorities, implement cost and carbon cutting actions, use data to make decisions, build the business case for investments, engage staff and suppliers, build their reputation as a green business, and create a long-term green business strategy. Putting net zero into context, identifying key impacts and priorities, and using carbon foot printing to inform decisions.

Powering Up Professional Skills

The Growth Company

Powering-Up Professional Skills (PUPS) capitalises on the Growth Company's established links/working relationships with GM employers including those in GM's Frontier Sectors (e.g. Manufacturing) and Foundation Economy sectors (e.g. Health and Social Care, Retail, Hospitality). They will target and deliver a fully tailorable programme of cross-cutting skills at Level 3 and above targeted at 400+ learners. Completion of the PUPS course is reliant on completion of 4 modules from a possible 8.
